A UNION TO SHAPE THE FUTURE OF GLOBAL SUPPLY CHAIN

Blue Ocean Academy, the largest knowledge empowerment enterprise in the Middle East is proud to host the **6th International Procurement and Supply Chain Conference**, scheduled on **November 6, 2021** in Dubai, uniting procurement and supply chain professionals from all over the Middle East. Built around the theme of **One World One Supply Chain**, IPSC 2021 is the only place to set yourselves up to thrive in an ever-evolving world of supply chain networking. Bringing together leaders and champions from logistics, procurement and the overall supply chain unit, the entire suite of executives will provide a 360-degree view of how to maximize your network & operations, eradicate silos & deliver a flexible and sustainable supply chain future.

The **6th IPSC** conference is slated at a time when everyone present in the smart city of Dubai will also witness the great confluence of millions of innovative and advanced experiences and ideas from every facet of human life at the **Expo 2020**. The UAE is a global role model when it comes to creating multiple leading-edge innovations, a fine example of which is the unique concept of **World Logistics Passport (WPL)**. A novel practice to strengthen existing and newly developing land, sea and air routes, as well as unlocking markets, the visionary program of WPL is the first global freight loyal scheme aimed at clearing barriers and freeing economies to trade and collaborate.

As the WLP network keeps getting stronger with prominent logistics partners and governments joining the league, it is a strong reinforcement of the fact that prospects for the supply chain industry at large is infinite. IPSC 2021 is all about uniting the best igniting minds from SCM and creating an ocean of treasured knowledge and priceless experiences for all to take away.

The whole of GCC region has emerged as an important trans-shipment point for Europe-Asia trade and also as a multi-modal logistics hub to cater to the needs of increasing trade within the block. Logistics infrastructure development and integration of transport and logistics services in the GCC region have provided opportunities for logistics providers in the UAE. According to the annual Agility Emerging Markets Logistics Index, GCC is fast emerging as the most competitive with **UAE ranking 1st** followed by **Saudi Arabia (3rd), Qatar (4th), Bahrain (7th), Oman (8th) and Kuwait (11th)**. The results alone speak volumes about the future of logistics and supply chain in the GCC.

AFTER A SERIES OF FIVE SUCCESSFUL CONFERENCES IN THE UAE, SAUDI ARABIA & QATAR

IPSC 2021 is all set to present its next edition. By attracting a very niche audience for the participating organizations, **6th IPSC** conference is a strong platform for increasing your distribution network, strengthening business relationship and sharing industry developments. Top industry leaders will share their insights and real-life working experiences with the audience. This is the global platform for thought leaders to discuss their Supply Chain Management experiences centered around indispensable strategies for efficient operational management & project success.

The one day conference includes keynote presentations, industry expert breakout sessions, product and tool presentations and numerous networking events. **IPSC Conference 2021** is the right place where you will explore the best practices in your field. It is particularly important for the key opinion leaders, policy makers, promising new generation entrepreneurs and others to come together to discuss and learn about the up-to-the-minute trends.
