Big Data Meets Supply Chain

Over the course of 2015 to 2020, the UK Manufacturing sector will gain £8.5 billion pounds in efficiency benefits due to implementing big data analytics to its Supply Chain. In the same period, professional services will yield £3.5 billion in efficiency benefits from Big Data.

The Future is 3D

3D Printing Industry is estimated to have a market value of \$26.5 billion in 2021 up from \$8.8 billion in 2017.

Robots not People

British Retail Consortium predicted almost a third of the UK's 3m shop jobs would disappear by 2025 due to companies replacing people with technology.

Supplying IoT

The Internet of Things (IoT) will benefit the UK Manufacturing sector in efficiency benefits of £4.042 billion over the period from 2015-2020.

Connected Risks?

In the *SCM 2017 Future of Supply Chain* survey of supply chain managers, 44% were concerned with data security, 26% were concerned with a natural disaster affecting supplier facilities and 19% were concerned with geo-political perils.
