

Brief Business Plan for 2017

November 23, 2016

1. CILT Taiwan has delivered CILT UK programmes in Taiwan through collaboration with CILT China. During 2015 CILT International Convention in Dubai, CILT Taiwan reached an agreement with CILT China that from 2016 on CILT programs to be delivered in Taiwan would be certified by CILT International, instead of those provided by CILT UK. However, as an agreement between CILT China and CILT International was not reached in 2016, launching of the programmes as planned will be from 2017.
2. Working together with The China Medical University based in Taichung, Taiwan, CILT Taiwan has designed and organized a new training course focused on food safety and supply chain management. Like in the past years, CILT Singapore collaborate with CILT to certify this course. Marketing efforts by CILT Taiwan will be put to promote this certified program.
3. Due to operation of CILT Taiwan closely linking to Taiwan Association of Logistics Management, under which CILT Taiwan has been not in a good position of raising its international profile in Taiwan and expanding the membership, CILT Taiwan is talking with key potential candidate striving for presidency for TALM in 2017 on separation of CILT Taiwan in 2018.
