

**Chartered Institute of Logistics & Transport (CILT)**  
**International Management Committee (IMC)**  
**Meeting of Thursday 29 November 2018**

**Report by Dr Neville Binning**  
**International Vice President (Australasia)**

**1. Expression of Interest by CILT Australia to Host 2020 International Convention**

An Expression of Interest to host the 2020 International Convention in Perth Western Australia is being finalised. It is being prepared with substantial assistance by the Perth Convention Bureau and Promaco Conventions Perth.

**2. IVP Elect**

It is considered useful to create IVP Elect positions. Expressions of Interest could then be called and appropriate appointments made. This would provide say 6-12 months opportunity to be an under-study to the particular IVP. This is consistent with succession planning and risk management.

**3. CILT International beyond 100 years?**

Mention has been made of it being prudent to consider changes that might enhance the prospects of CILT International beyond the forthcoming 100 year anniversary.

I have on various occasions advised my interest in being involved in such an initiative. Again I do so.

**4. Philippines**

CILT Australia has long been actively involved with folk from the Philippines. In particular Helen Stehbens and Karyn Welsh have been proactive in creating and delivering opportunities to promote CILT. I have as IVP been party to such involvement and reported this at IMC meetings. Other CILT jurisdictions have also identified an interest in promoting CILT in the Philippines.

There has been activity in recent times to progress this matter. It would be appreciated if the current state of play and proposed further actions could be advised.
