

Andrew

I couldn't reach you just now when tried so will give you a brief update.

We had our project team meeting today with all three parties involved – DAI/ USAID, CILT Kazakhstan and CILT International.

This identified

1. We have an agreed payment process that transfers the money to CILT Kazakhstan on a timely basis ahead of cash being required
2. We have to be paid through CILT Kazakhstan as a condition of the money being spent
3. We have a strong project structure to manage

This leaves us with

1. Agreement with CILT Kazakhstan on the onward payment of International – to be defined and agreed in a meeting next week
2. Budget presentation of the sums paid – at present I have budgeted all the project income and costs through International but presumably we will need to budget only monies following through International?

I have now added this to the IAC agenda next Thursday so that we have time to formally agree the approach proposed.

Regards

Keith
