

CILT Next Generation February 2021

Open actions

- 80% of committee have shared bio/image with Emma + Usman. Chasing rest with aim for end of February all information to be given to Ceri and team.
- Some interest within the committee to revisit the conversation of a brand/logo for Next Generation. Emma to share the brand guidelines to make team aware. Sub group potentially want to approach to come up with something collaboratively.
- FAQ and website contents in progress. Linked to point one.

Recent activities

- 3rd February Webinar hosted by Next Generation.
- Some good interactions and we are looking forward to supporting hosting another session. Been suggestions and feedback asking for more interaction – some of the regions inspired by the work in Sri Lanka thinking of quiz based event. More social over learning/experience exchange.
- Committee members now have key roles, this is being finalised in our next meeting and will be shared for the website.

Challenges

- Time and time zones. Taking some time to set up calls for all the reps for the regions, but we persist! Additionally, in current work climate some of committee finding it harder to commit to certain times. Reviewing within the team how we can support.
- Questions and queries. 6 emails this year all asking about how to apply for membership/where can they study/wanting a mentor.
 - Do we have a “CILT wide” approach to such questions. I have created my own and point them in the direction of relevant people depending on country. Just a thought!
