IMC Report – Australasia

1 Challenges:

- Uncertainty with lockdowns when to plan for face-to-face events
- COVID safe events and how we are to manage the unvaccinated attendees to protect them
- Outstanding renewals
- Meeting the deadlines of grant applications amidst other business activities and IT implementations and roll-outs for Australia
- Limited shipping opportunities for NZ

2 Opportunities:

- Government Grant opportunities for Australia
- Government reports

3 New Idea: CILT-International compile each 3 months an industry/academic set of articles, or mini papers, from say 10 branches at a time. This 'magazine/quasi journal' keeps CILT-International members across activities in each chapter. If each chapter put in 1 a year then 10 articles a year would cover news/analysis from each chapter….

International have the resources to compile this and it's a value add for the chapters.
